Bahir dar. Ethiopia

## PROFILE

Motivated and detail-oriented Computer Engineering student with a strong foundation in software development, hardware systems, and problem-solving. Proficient in programming languages such as Python, C++, and Java, with hands-on experience in algorithms and data structures. Passionate about networking and web development, with a keen interest in applying engineering principles to real-world challenges. Strong analytical skills, teamwork, and adaptability in fast-paced environments. Seeking an internship opportunity to leverage technical expertise, learn from industry professionals, and contribute to cutting-edge technology solutions.

## TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C++, JavaScript
- **Web Technologies:** React, HTML, CSS
- **Databases:** MySQL
- **Tools & Frameworks:** Git, Spring Boot
- **Concepts:** Object-Oriented Programming (OOP), Data Structures, Algorithms, REST APIs

## EDUCATION

### Bachelor of Science in Computer Engineering

Bahir-da University,  
Bahir Dar, Ethiopia  
09/2022 - present

## CERTIFICATIONS

- Certificate in Advance React at coursera
- Certificate in Python at coursera
- Certificate in JavaScript at coursera
- Certificate in control versions at coursera
- Certificate in basic html and css at coursera
- Certificate in Introduction of frontend at coursera
